

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Rules

1. Competitors must polish one hand of the model with a red cream GEL polish OR COLOR GEL only. No frost or shimmers allowed.
2. These are traditional competitions with French style pink & white gel nails to be created. Cover pink, transparent pink, clear and white gel products are allowed. These are NOT salon style nails. The nails are expected to be thin and have a c-curve in the structure. Smile lines are to be created.
3. Total time allowed 3 hours (180 minutes)
4. The competitor must use traditional hard gel to apply the nails and must use forms.
5. No tips allowed
6. All gel sealers of any kind are allowed onto the nails.
7. Gel sealers and gel topcoats on the exposed pink and white gel application is allowed to create shine
8. Cuticle oil is allowed.
9. Water and soap may also be used in finishing.
10. Competitors may not pre-size or cut the forms prior to the start of the competition. Doubling of forms is allowed as long as they are not cut in any manner and left on the paper. Metal supports are allowed but must be applied after competition begins
11. No glue is allowed in the Gel sculptured competition.
12. Electric files are allowed, but competitor must supply their own machine, electrical cords and adaptors.
13. Electric file oil and buffing creams used with Chamois style buffers are allowed both by hand or machine.
14. Pinching tools, c-curve stick and all types of tools used to create a proper structure are allowed
15. Division 1: one hand may be applied with the competitors choice of Clear or Pink hard gel (red gel polish or color gel must be applied on this hand), the other hand must be applied with Pink and White hard gel to create the appearance of a French style nail. No use of gel polish or color gel is allowed to create white application. Clear gel is allowed to be used to create the nails structure.
16. Divisions 2 & 3: the competitor must apply both hands with Pink and White hard gel to create the appearance of a French style nail. No use of gel polish or color gel is allowed to create the white application. One hand will be judged for the smile line application and the other hand must have red gel polish or color gel applied to cover the application. Clear gel is allowed to be used to create the nails structure.
17. All general rules apply to this competition.
18. Total points for Division 1 is 150, Division 2 is 155, Division 3 is 160.

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Judges Instruction For Nail Structure Categories

- **10 point total on all categories.**
- **1 point a nail.**
- **In a one hand competition, point total is reduced to 5 points.**
- **Each nail is judged on its own merit.**
- **The nail must meet all of the criteria for the category being judged to earn its point.**

Convex

- The exterior contour of the nail form should be completely symmetric
- The surface of the nail should have no inconsistencies or appear to be uneven on the outer surface.
- The judge will examine the nail by looking at nail from a head on and check zone 3 from the back side perspectives check zone 2.
- The convex or surface of the nail should contour symmetrically throughout the entire nail until it reaches zone 1
- The nail can earn a 1/2 point for each correct zone.

Concave

- The interior contour or tunnel of the free edge must be completely symmetric and concentric.
- The nail's concave should have the appearance of the inside of a tunnel throughout the entire free edge that is apparent to the eye or until the c-curve stick touches the finger's tip from the underside.
- The nail can earn a 1/2 point for each that is correct

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Arch and Apex

- The high point (apex) of the arch should not appear overly apparent.
- It should have a subtle and gradual incline that is located consistently in the second zone (see example) of each nail.
- The entire arch including the apex, should be not be overly apparent or appear too flat in the second zone.
- The arch should not be located too far forward or back in the second zone when looking at the entire nail from a profile perspective.
- The nail can earn a 1/2 point for each of these two criteria that are required

Form Fit

- The nails extension should be free of any notches or gaps on the lateral side folds where the free edge extension begins.
- The notches are created during the application process and can not be created with a file.
- The nail can earn a 1/2 point for each of side of the nail that doesn't have a notch.

Judges Instruction for Shape and Refining Categories

- **10 point total for all of these categories**
- **1 point for each nail.**
- **1/2 points may be given**
- **Each nail is judged on its own merit.**
- **The nail must meet all of the criteria for the category being judged to earn its point.**

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Free Edge Thickness

- The nail must be consistently thin throughout the nail's free edge and measure the same on the sidewalls and center.
- The free edge should not be any thicker than 1.5mm until it reaches the top of the finger tip from the underside of the nail.
- The nail can earn a 1/2 point for each of these two criteria that are required.
- See example of measuring tools used to measure the thickness.

Sidewalls

- The Free edge must extend straight out from the lateral folds.
- The nail should not flare out or taper in when looking at the hand from a front perspective.
- The nail should be uniform on each side.
- There cannot be any ridges on the free edge extension.
- The sides of the free edges should feel smooth and appear to be filed clean.
- There is a 1/2 point earned for each side of every nail being scored.
- There is only one score earned in a one handed competition and both sides must be perfect to earn one point.

Lateral Side Extension

- To find the lateral side extension you must look at the extension from the nail's profile.
- The free edge must extend straight out from the natural nail's lateral fold.
- The nail should not drop down or appear to be tapered upward from the profile perspective.
- The nail should appear to have symmetry so the side extensions are consistently located.
- There should be no exposure of the natural nail's lateral fold.
- There is a 1/2 point earned for each side of every nail being scored when the competition is two hands.
- There is only one score earned in a one handed competition and both sides must be perfect to earn one point.

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Judges Instruction for Shape and Refining Categories Continued

- **10 point total for all of these categories**
- **1 point for each nail.**
- **1/2 points may be given when the nail has multi-criteria that are required to be judged in that category. For example, there are two elements required to earn .5 point. Therefore, half points may be given when judging C-curve**
- **If it is a 1 hand competition the point total is reduced to 5 points and each nail must meet the criteria to earn 1 point. No half (.5) points are given**
- **Each nail is judged on its own merit.**
- **The nail must meet all of the criteria for the category being judged to earn its point.**

C-Curve

Division 1:

- The C-Curves must be a minimum of 40% of a circle and no more than 50%
- Each c-curve should appear concentric
- There is a 1/2 point earned for each criteria

Division 2:

- The C-Curves must be a minimum 40% and maximum 50% of a circle.
- Each c-curve should appear concentric
- Both of these criteria are required to earn a .5 point for each nail. If a nail does not have symmetry and the proper degree of c-curve in will not earn .5 point
- To earn the second possible .5 point for each nail each side edge of the c-curve must measure evenly on each side and appear completely symmetric.
- To earn 1 point the nail will have the first two criteria for .5 point and will have matching edges to earn .5 points, to make a total earned of 1 point.

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Division 3:

- The C-Curves must be a minimum 40% and maximum 50% of a circle.
- Each c-curve should appear concentric
- Both of these criteria are required to earn a .5 point for each nail. If a nail does not have symmetry and the proper degree of c-curve in will not earn .5 point
- To earn the second possible .5 point for each nail each side edge of the c-curve must measure evenly on each side and appear completely symmetric. AND must look consistent in shape to its match finger. IF BOTH OF THESE CRITERIA ARE NOT PRESENT BOTH NAILS DO NOT EARN .5 POINT

Judges Instruction for Shape and Refining

- **10 point total on all categories.**
- **1 point a nail.**
- **If 1 hand competition point total is reduced to 5 points.**
- **Each nail is judged on its own merit.**
- **The nail must meet all of the criteria for the category being judged to earn 1 point.**

Nail Shape

- The shape of the nails must look consistent and uniform.
- The top of the Free-edge must not appear to be filed unevenly. If it is filed straight, it earns a 1/2 point
- The Free edge must look straight as it extends from the nail plate.
- It should not look as if the nail was applied crooked or that the nail is off in a tilted direction.
- The extension should be applied true to the natural nail.
- The nail should be straight to the nail. Not straight to the finger.
- The hand will be turned around so the nail is examined from the front perspective.
- If the nail has been applied properly and the shape appears to look straight, the nails earns a 1/2 point

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Surface Smoothness

- The nail should not have any file lines of demarcations on the surface.
- The finished product application should look and feel smooth
- All production application should be filed and buffed completely smooth
- If gel sealer is applied, it must be applied on the entire nail.
- There must not be any portion of the surface of the nail exposed and left unsealed.
- The nail must feel smooth on the entire surface.
- The gel sealer must not have any bubbles.
- If there is only a small and hard to see line of demarcation on the surface of the nail or portion of the nail left without gel sealer that can't be felt, it is possible to earn a 1/2 point.

Judges Instruction for Length

- **10 point total for this category.**
- **The points on the score sheet that represents the polished hand are the points earned for each matching finger's length accuracy.**
- **The points on the score sheet that represents the French hand are the points earned for each nails accuracy with the French application ratios.**
- **If it is a 1 hand competition, each nail earns 1 point for the accuracy of the French extension.**
- **The matching nail length is NOT considered in a 1 hand competition**

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Length

- Points are given for two different criteria.
- The first point is earned with each nail being measured individually and then scored.
- The nail is measured from the Cuticle to center of the smile-line to match the length of the top of the Free edge to the tips of the smile-line. *See example of diagram*
- If the smile points are not matching from side to side and one tip appears to be higher, measuring the length is considered to the higher (longest) smile tip.
- The second point is earned with both hands being measured together. The nails must also match hand to hand from cuticle to free edge to earn 1 point for matching fingers.

Judges Instruction for Application and Finishing

- **5 point total on all categories.**
- **1 point a nail.**
- **There will be 10 points for this category if the competition has French application exposed on both hands with no red polish covering either hand.**
- **Each nail is judged on its own merit.**
- **The nail must meet all of the criteria for the category being judged to earn its point.**
- **1/2 points can be earned**

High Shine Finish

- The French hand should have a high gloss shine that has a glass finish appearance throughout the entire surface of the nail.
- The shine on the French hand should have a reflective appearance to earn a 1/2 point
- The sides, edges and cuticle area must be considered to earn a 1/2 point
- Lines of demarcation are NOT considered as long as the shine is apparent.
- If gel sealer is applied the point is earned if: The sealer is completely cured; the sealer doesn't feel or appear to be tacky or dull on the surface of the nail.
- All of the tacky residue (inhibition layer) is completely removed off of the nail.

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Product Control

- The application of the product should look evenly applied with a sharp division of color at the smile-line.
- There should not be a noticeable pink hue or shadow pulled over the white gel.
- The White gel should have a solid appearance throughout the entire nail.
- If cover pink gel is used to create a nail plate extension, it should not be applied over the white gel at the smile-line or be seen from the top view of the nail.
- There should not be any shadows or transparencies in the white or cover powder pink gel.
- If you are using cover pink gel to extend the nail plate, the natural nail must not show or shadow in the extended nail.
- There must not be any air bubbles and or pitting in the product.
- 1/2 point is earned for the white application and a 1/2 point is earned for the pink application.

Gel Polish Application

- The red gel polish hand should be completely cured and have gel top seal applied perfectly with no inconsistencies in the application
- Top coat and two coats of red gel polish should be applied
- The gel polish should be applied close, consistently even at the cuticle.
- The application of the gel polish should not appear to have streaks.
- The sides and tip of the nails edges must be covered.
- There must not be any red or clear gel polish on skin or back side of nails.
- All edges surrounding the free edge must be completely polished.
- If the nail has a minimum of 2 of the 3 criteria the nail can earn additional ½ a point.

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Judges Instruction for Application and Finishing

- **10 point total on all categories.**
- **1 point a nail.**
- **If it is a one hand competition, the point total is reduced to 5 points.**
- **Each nail is judged on its own merit.**
- **The nail must meet all of the criteria for the category being judged to earn its point.**
- **It is possible to earn a 1/2 point.**

Cuticles Area

- The cuticle and surrounding skin on the nail folds must not have any new cuts or irritation around the nail.
- There should not be any noticeable and apparent ledge of product that can be felt or seen near the proximal folds.
- The application of product must be apparent and cover the entire cuticle area near the proximal folds without leaving a large margin between the cuticle line.
- The product must not be overly filed and must be apparent.
- Each nail must have all criteria to earn 1 point and 2 of the criteria to earn a 1/2 point.

Underside

- There should be no visible dust, debris, water, glue or excessive oil on the back of the nail.
- The nail will earn a 1/2 point for a clean appearance
- The product application must appear smooth behind the nail with no excess product AND
- When cover pink gel is applied, the back of the nail must appear to have a clean line of separation and the white must appear clean and opaque in shade to earn a 1/2 point for each nail
- Please note: If polish is present on the underside of the nail's free edge the point deduction will be given by the judge for the polish criteria.

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Judges Instruction for Smilelines

- This category is judged differently for each category.
- Division 1: Total points is 5. 1 point possible for each nail
- Division 2 Total points is 10. 2 points possible for each nail
- Division 3 Total points is 15. 3 points possible for each nail.
- Each nail is judged on its own merit.
- The nail must meet all of the criteria for the category being judged to earn its point.

Smileline

Division 1 : Total possible points per nail 1

- The smile-line must be consistently shaped from nail to nail and have a sharp division on all exposed nails.
- The consistency of the smile line shape will be determined by the majority of the nails that appear to have the most similar appearance in style.
- If the smile line has a clean line AND represents uniformity with the other nails smile lines in earns 1 point

Division 2 : Total possible points per nail 2

- The smile-line must be consistently shaped and have a sharp division on all exposed nails.
- The consistency of the smile line shape will be determined by the majority of the nails that appear to have the most similar appearance in style.
- Each nail will earn 1 point when the smile line appears to have the first two criteria listed above
- Each nail will earn 1 point for the 3rd criteria listed below
- The line should be centered and evenly aligned on the nail plate so that it does not appear to be lopsided or sideways.

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Gel French Sculptured Competition Rules, Judges Instruction & Criteria

Division 3 : Total possible points per nail 3

- The smile-line must be consistently shaped and have a sharp division on all exposed nails.
- The consistency of the smile line shape will be determined by the majority of the nails that appear to have the most similar appearance in style.
- Each nail with an exposed smile line will earn 1 point when the smile line appears to have the first two criteria listed above
- Each nail with an exposed smile line will earn 1 point for the 3rd criteria listed below
- The smile line should be centered and evenly aligned on the nail plate so that it does not appear to be lopsided or sideways. If the smile is applied properly and centered it will earn 1 point
- Each nail with an exposed smile line will earn 1 point for the 4th criteria listed below
- The application of the smile line should be evenly applied so that the tips of the smile-line are parallel and match perfectly.
